Recall Operations Guidance Rc 2025 0417

Internal recall-handling guidance specifying validation steps, permitted remedies, and when Recall Operations must own the case.

Document Details

General

Knowledge:Article Id: KB-RCL-8821

Knowledge:Recall Event Id: RC-2025-0417

Knowledge:Applies To: NordRide GlideLite X2 Midnight Black only

Knowledge:Excludes: GlideLite X2 Plus and any non-Midnight Black variants

Knowledge:Verification Rule: must verify both ordered product variant and uploaded serial label before remedy

Knowledge:Identity Rule: customer identity must be authenticated before refund or return action

Knowledge:Resolution Rule: order specialist must create post-delivery resolution request tagged RECALL_VERIFY

Knowledge:Routing Rule: all confirmed RC-2025-0417 cases must be routed to Recall Operations queue

Knowledge:Refund Rule: refund/store credit may be issued only after confirmed match and Recall Operations intake

Knowledge:Financial Remedy: full item refund or equivalent store credit; shipping not additionally refunded if already fulfilled

Knowledge:Customer Instruction: advise immediate stop-use and retain product pending handling instructions

Knowledge:Evidence Requirement: serial label photo required; recall email alone is insufficient

Additional Information

Render a clean internal policy PDF article titled 'KB-RCL-8821 — Recall Handling: NordRide GlideLite X2 RC-2025-0417'. Include sections with exact, easy-to-parse text. Section 1 'Scope': applies only to NordRide GlideLite X2 in Midnight Black; excludes GlideLite X2 Plus and other colors. Section 2 'Mandatory Validation': (1) authenticate customer identity before any financial or return action; (2) confirm delivered order item matches affected variant from product/order records; (3) verify uploaded serial label falls within affected serial range for RC-2025-0417; (4) customer email screenshot alone is not sufficient proof. Section 3 'Customer-Facing Guidance': tell customer to stop using the stroller immediately and retain the product until instructions are provided. Section 4 'Operational Process': order specialist submits post-delivery resolution request with tag 'RECALL_VERIFY'; once recall match is confirmed, route case to 'Recall Operations'. Section 5 'Remedy Rules': permitted remedy is full item refund OR equivalent store credit only after confirmed product/serial match and Recall Operations intake; do not add outbound shipping reimbursement for already fulfilled order. Section 6 'Escalation': all confirmed RC-2025-0417 baby gear recall cases require specialized Recall Operations ownership. Format as a professional knowledge-base PDF with article ID, effective date, footer, and clear bulleting.
