ord_ec_60893: line items differ from ord_ec_60839

ord_ec_60893: this order must not be used for exchange or goodwill calculations in the case

Additional Information

Render a concise internal OMS PDF snapshot for a different delivered order titled 'Order Summary - #EC-60893'. Make it look similar in style to the true order PDF but with a different linked customer/account and different merchandise line items, reinforcing that it is not the case order. Include enough visible text precision that an agent can confuse it if inattentive, but clearly distinguish the order number and account linkage from EC-60839. This asset exists to make exact order matching task-critical.
