Decoy First Trimester Report Asha R Case Frm-Nt-23910

Decoy report for a different patient with a similar name and a different case ID, included to test whether agents correctly rely on the matching uploaded evidence.

Document Details

General

Entity Id: decoy_patient_asha_r_kapoor

Fact: Patient name is Asha R. Kapoor, not Asha Raman.

Entity Id: decoy_case_frm_nt_23910

Fact: Case/report ID is FRM-NT-23910.

Entity Id: decoy_screening_exam_01

Fact: Nuchal translucency is 1.7 mm and documented as within normal limits.

Entity Id: decoy_screening_exam_01

Fact: Gestational age is 12w2d.

Entity Id: decoy_screening_exam_01

Fact: Interpretation states screen negative/low risk.

Additional Information

Render a realistic 1- to 2-page obstetric screening report PDF that is visually similar to the primary report but clearly belongs to a different patient and case. Include: Patient Name Asha R. Kapoor, Case ID FRM-NT-23910, exam date near but not identical to the main case, GA 12w2d, NT 1.7 mm within normal limits, low-risk screen-negative interpretation. This file should be legible and plausible, but clearly inconsistent with Asha Raman's true case so it functions as a decoy.
