Consult:Packet Recommendation: proceed with updated workup and psychosocial review before candidacy committee

Checklist:Required Next Steps: dental clearance, updated cardiology testing, social-work transportation plan confirmation, repeat infectious disease serologies

Additional Information

Render a realistic 6-8 page US transplant-center PDF packet for patient Lucia Benitez. Page 1: cover sheet titled 'Kidney Transplant Evaluation Packet' with MRN-style identifier, DOB 04/17/1986, referral reason ESRD due to diabetic nephropathy. Include a concise referral summary noting CKD progression to ESRD in 2023 and current in-center hemodialysis since 11/06/2023 on Mon/Wed/Fri first shift. Page 2: prior history summary with brief timeline, dialysis attendance note 'missed 2 sessions in last 3 months related to transportation', medication adherence note 'generally adherent; occasional phosphate-binder lapses', and patient goal statement about energy/family. Page 3: psychosocial summary written in professional clinical style that identifies support persons but avoids excessive demographic detail: primary support adult daughter Ana Benitez, backup support church friend Marta Rios; concern that transportation reliability became inconsistent after daughter's work schedule change; patient otherwise independent and uses pillbox. Page 4: social-work impression and readiness section stating psychosocial risk is manageable but requires transportation plan confirmation before committee review. Page 5: insert an obviously marked prior evaluation summary from 2022 stamped

diagonally 'EXPIRED / CLOSED' with reason incomplete dental clearance. Page 6: include a one-page stray record header for 'Lucia Benitez-Soto' with bold banner 'WRONG CHART INSERT - NOT THIS PATIENT / DO NOT USE' referring to living donor note, to test document discrimination. Final page: coordinator checklist listing required next steps: dental clearance, updated cardiology testing, repeat infectious disease serologies, social-work transportation plan confirmation. Use realistic formatting, signatures/initials blocks, and checkbox list styling.
