Reason: standing water and electrical inspection

Scope: inbound gate and berth operations suspended only at Terminal 9

Entity:Location

Riverport Terminal 9: berth closure location

Riverport Terminal 7 !: closure location

Additional Information

Create a 1- to 2-page official port notice PDF titled 'Riverport Harbor Authority Operations Notice'. The notice must state that due to standing water and required electrical inspection, inbound gate and berth operations at Terminal 9 are suspended from 2025-05-16 06:00 through 18:00, issued at 05:40 local on 2025-05-16. It must explicitly limit the closure to Terminal 9 only and not Terminal 7. Include a footer with contact information and a small harbor terminal reference list naming Terminal 7 separately. The document should look authentic and precise so agents must notice that it is a decoy closure unrelated to the shipment terminal.
