entity:location.riverport_terminal_7 is within advisory region

Additional Information

Render a 2-page official-looking government PDF weather bulletin titled 'National Hydrometeorological Service – Flood Watch Advisory'. Show issuance datetime 2025-05-14 06:00 local. The advisory should cover the Riverport industrial harbor zone including Terminal 7, valid from 2025-05-14 12:00 through 2025-05-15 23:59. Text should describe expected heavy rainfall, elevated river levels, possible road ponding, and loading delays, but clearly state this is a flood watch/advisory and not a closure order. Include map inset labeling Riverport Terminal 7 inside the advisory zone. Make the timing precise because agents must compare it to the delivery deadline and later evidence.
