License Correspondence Email Chain March 2025

Email chain showing pre-suit licensing outreach, internal response posture, and date-stamped negotiation boundaries.

Document Details

General

ent.correspondence.prior_contact_2025_03_28 is an outbound email from Medivault counsel proposing a license discussion

ent.person.iris_cho of ent.company.osprey_arc_medical_devices replies on 2025_04_01 requesting claim details before any commercial discussion

ent.person.lena_ortiz of ent.company.medivault_surgical_ip_llc states on 2025_04_03 that a claim chart will follow

ent.correspondence.no_admission_language states Osprey does not admit infringement in the reply

ent.exposure.settlement_anchor_preletter includes a preliminary 5% running royalty concept discussed before the cease-and-desist letter

ent.date.email_chain_start_2025_03_28 and ent.date.email_chain_end_2025_04_03 establish licensing-contact sequence before formal notice

Additional Information

Render a text-searchable PDF export of an email chain with realistic email headers. Participants: Medivault counsel/Lena Ortiz, Osprey Arc's Iris Cho, and a copied business representative. Dates: March 28, 2025 through April 3, 2025. The March 28 email proposes a business resolution and mentions a possible non-exclusive license around a 5% running royalty if discussions begin promptly. Osprey's April 1 reply says the company does not admit infringement and requests a claim chart and supporting material before discussing commercial terms. April 3 response says a claim chart will be sent. Keep content concise but precise; this PDF is needed for reviewing licensing posture and chronology.
