Medivault Claim Chart Us11098765 Vs Vascusecure

Detailed patent claim chart mapping asserted claims to annotated screenshots and product features attributed to Osprey Arc's device.

Document Details

General

ent.patent.us_11098765 claim 1 limitation 'elongate anchor body with proximal hub' is mapped to ent.feature.proto_anchor_body

ent.patent.us_11098765 claim 1 limitation 'radially biased locking member movable between open and locked positions' is mapped to ent.feature.accused_rotational_lock_tab

ent.patent.us_11098765 claim 1 limitation 'torsion-dampening channel extending longitudinally along the hub' is mapped to ent.feature.accused_torque_relief_channel

ent.patent.us_11098765 claim 4 limitation 'color-indicating lock status marker' is mapped to ent.feature.accused_green_red_status_window

ent.patent.us_11098765 claim 7 limitation 'removable strain-relief clip integral to the hub' is mapped to ent.feature.accused_integral_strain_clip

ent.evidence.screenshot_competitor_comparison_mockup_2025_02_17 is cited as the primary visual source for several mappings

ent.evidence.prototype_photo_revC_2025_05_02 is not cited in the chart, creating a chronology distinction

ent.claimchart.annotation notes that some dimensions are estimated from marketing imagery and not from physical inspection

Additional Information

Render a text-searchable 6-page patent claim chart PDF titled 'Claim Chart – U.S. Patent No. 11,098,765 vs. Osprey Arc VascuSecure'. Use a formal litigation-support style table with columns: Claim Limitation, Medivault Position, Osprey Feature/Source. Map claim 1, 4, and 7 limitations to Osprey features. Explicitly identify the source material for the accused product as a 'February 17, 2025 competitive comparison screenshot prepared by business development' and not a physical specimen. Include one note in small text: 'Dimensions and angular travel estimated from marketing rendering; no teardown performed.' Include callouts to a rotational lock tab, longitudinal torque-relief channel, green/red status window, and integral strain-relief clip. Make the chart detailed enough for legal issue spotting and easy to read.
