Product Development And Notice Timeline Matter Extract

Matter timeline extract aligning design revisions, marketing artifacts, outreach, formal notice, and prototype photography for contradiction and sequence analysis.

Document Details

General

ent.date.mockup_created_2025_02_17 precedes ent.date.notice_letter_2025_04_12

ent.date.revB_design_freeze_2025_02_21 identifies when the concept render reflected a then-current but not final design

ent.date.revC_change_order_2025_03_19 records replacement of rotating lock tab with sliding latch and removal of status window

ent.date.license_outreach_2025_03_28 precedes formal cease-and-desist notice

ent.date.notice_letter_2025_04_12 precedes ent.date.prototype_photo_2025_05_02

ent.timeline.issue the accused screenshot and photographed prototype are from different revisions

ent.timeline.issue same-name confusion warns that an older unrelated prototype image exists in the repository under a similar filename

Additional Information

Render a text-searchable 2-page internal matter timeline PDF with a clean table format. Title: 'Osprey Arc – VascuSecure Development and Notice Timeline (Extract)'. Include columns Date, Event, Source, Notes. Include these dated entries: 2025-02-17 marketing concept render created; 2025-02-21 Rev B design freeze; 2025-03-19 engineering change order replacing rotating lock tab with sliding latch and removing status window, creating Rev C direction; 2025-03-28 Medivault licensing outreach; 2025-04-12 cease-and-desist letter received; 2025-05-02 prototype photo of Rev C taken. Add a warning note that a similarly named older prototype artifact exists elsewhere and should not be confused with the current matter. Make the timeline concise but precise for chronology comparison.
