Insurer Evidence Checklist

Insurance checklist specifying exact evidence retention, damaged-asset logging, and relocation preconditions required before service actions.

Document Details

General

INS-CHECKLIST-EMBER-01 requires retaining timestamped photos of each damaged asset before removal or reassignment.

INS-CHECKLIST-EMBER-01 requires a damaged asset log containing employee name, asset tag, damage condition, and whether the item remains in place or is pulled from service.

INS-CHECKLIST-EMBER-01 states unaffected nearby devices must not be included in the damage log.

INS-CHECKLIST-EMBER-01 requires preserving equipment in place until evidence is captured, except where safety demands immediate isolation.

INS-CHECKLIST-EMBER-01 requires relocation seating plans to avoid listing serial numbers in external insurer-facing summaries.

INS-CHECKLIST-EMBER-01 references internal compliance with knowledge article 'emberwave_emergency_facilities_sop' before relocation execution.

Additional Information

Render a professional two-page insurer checklist PDF titled 'EmberWave Studios – Water Damage Evidence Checklist'. Use formal insurer document styling with header, footer, checklist sections, and bullet points. Include precise, readable requirements: 1) 'Capture and retain timestamped photographs of each damaged asset before any removal, reassignment, or disposal.' 2) 'Complete a damaged asset log with employee name, asset tag, observed damage condition, and status: left in place / pulled from service.' 3) 'Do not include nearby unaffected devices in the damaged-asset log.' 4) 'Preserve equipment in place until evidence capture is complete unless immediate safety isolation is required.' 5) 'Temporary relocation may proceed only after evidence capture and internal SOP review are complete.' 6) 'External or insurer-facing summaries must omit serial numbers.' 7) Add a note: 'See internal knowledge article: emberwave_emergency_facilities_sop.' Ensure all text is crisp and machine-readable.
