Official Platform Safety Note Impersonation Policy

Official platform safety note defining impersonation-tag handling and the approved channel for disputes.

Document Details

General

entity:platform.streamline_forums — official note is from StreamLine Platform Safety

entity:policy.impersonation-tag-v2 — document defines impersonation-tag policy version 2

entity:queue.slf-20471 — disputes about impersonation-tag handling must be submitted to queue SLF-20471

entity:policy.parody-distinction — note distinguishes impersonation from parody/fan commentary accounts

entity:policy.evidence-required — requires screenshots, account links, and explanation of likely user confusion

entity:policy.privacy-minimization — asks reporters not to include nonpublic phone numbers, tipster identities, or off-platform personal details

Additional Information

Create a polished official policy PDF titled 'StreamLine Platform Safety Note: Impersonation Tags and Account Context (v2)'. Include a formal header, date 2025-04-10, and sections: 'What qualifies as impersonation', 'Parody/Fan Exceptions', 'How impersonation tags are applied or removed', 'How to dispute a tag decision'. State that disputes concerning impersonation-tag handling must be directed to 'Safety Forum queue SLF-20471'. Include specific evidence requirements: screenshots, account URLs/handles, and explanation of likely user confusion. Add privacy guidance: do not include protected tipster identities, phone numbers, or unnecessary off-platform personal data. Mention that parody/fan accounts may use similar names but context labels and non-deceptive presentation matter. Text should be selectable.
