Policy PDF excerpt containing the exact stored articles on post-purchase price adjustments and flash-sale exclusions.

Details

Document Title	Price Adjustment & Flash Sale Policy Excerpt
Section Heading	Article 4: Post-Purchase Price Adjustments
Section Heading	Article 7: Flash Sale Terms and Exclusions
Article 4 Rule	Price adjustments are not available after an order has been submitted and payment has been captured
Article 4 Exception	A pricing correction may be issued only when the billed amount exceeds the final checkout price stored in the order record
Article 4 Evidence Rule	Screenshots, advertisements, or cached pages do not override the final checkout price stored at order confirmation
Article 7 Rule	Flash-sale pricing applies only during the active promotional window and while eligible inventory remains available
Article 7 Exclusion	Flash-sale promotions cannot be combined with post-purchase price matching or retrospective discount requests
Article 7 Exclusion	Promotional banners are informational and do not guarantee eligibility if the checkout total reflects a different finalized offer
Policy Footer Reference	Internal Commerce Policy Excerpt

Additional Information

a realistic 2-page policy excerpt PDF using reportlab

the layout resembles an internal policy manual excerpt: wide margins, page numbers, footer reference text, and clear article numbering

Article 4 on post-purchase price adjustments and Article 7 on flash-sale terms and exclusions, with definitions, rules, and exceptions presented as dense but readable policy language
