Additional Information

a realistic 3-page ecommerce escalation-case packet PDF

Title the document as a scoped escalation packet for order EC-81244 and show the customer identifier prominently near the top

a clearly labeled note that the order was delivered but tied to a missed birthday delivery complaint

Page 2 present a chronological communication history in table form with timestamps, channel, agent/team, and summary columns; include a rendered screenshot-style inset or quoted transcript excerpt from concierge chat

Also include a prior concessions section listing adjustments already made

Page 3 contain a confusion-risk section showing a nearby similarly numbered order in a comparison table, with visual cues emphasizing which details belong to EC-81244 versus the other order

Use realistic internal document conventions such as section dividers, shaded tables, and redacted-lite operational notes, but do not add unrelated entities beyond the provided fixture IDs
