Additional Information

a realistic 1-page ecommerce invoice PDF using reportlab

Place the merchant header at the top with a clean retail layout, followed by an order summary panel showing order identifier, customer identifier, invoice date, payment status, and delivery status

a bill-to section for the customer

Beneath the table, include a totals box with subtotal, shipping, tax, and grand total

a small note area labeled for adjustments or credits, showing prior adjustment markers in plain text

a footer with customer support text and page number

This invoice is confidential and intended for authorized recipients only.
