OCR and direct fact extraction

Doc-55102 Invoice Order Ec-73418

Invoice PDF for the delivered order, used to confirm the purchased machine and component context against the uploaded evidence.

Details

Document ID DOC-55102 is the invoice attached to support case CASE-IMG-5128.
The invoice is for order EC-73418.
The billed customer name is Sienna Navarro.
The invoice email is sienna.navarro@shopline.example.
The invoice is linked to customer CUS-8814.
The line item shows a home espresso machine purchase, with model/sku text indicating compatibility with a replaceable water tank variant.
The invoice marks the order as delivered/finalized, supporting use of a post-delivery resolution path rather than pending-order modification.
The invoice footer or appendix includes a customer-support reference to CASE-IMG-5126 as prior unrelated correspondence, creating a scoped distractor that should not be treated as the active request.
The invoice lists the machine sale amount and shows no separately purchased replacement tank on the original transaction.

Additional Information

Header show 'Document ID: DOC-55102' and 'Invoice for Order EC-73418'

Customer block list 'Sienna Navarro', email 'sienna

invoice date, delivery-complete/finalized status, and a line item for a home espresso machine with product/model text that clearly implies a compatible removable water tank component exists

quantity 1 and realistic pricing/tax/total

Do not include a replacement tank as a separate purchased line

In a notes or footer section, add a small prior-support reference 'Past support ref: CASE-IMG-5126' as a distractor, while keeping the main document tied to EC-73418

This invoice is confidential and intended for authorized recipients only.
